Option 1:

NOTE: any edits made to this file using this method requires running the “reboot” command at the end to properly save the file

Plug in keyboard

Press/hold Q to quit to terminal

You should see green text that says “pi@raspberrypi:”

Type “sudo nano /boot/table.py”

Hit Enter

Change the lower most text where it says “table = SOME_NUMBER” to your desired table

Press Ctrl + X

Press Y

Press Enter

Type “reboot”

Press Enter

Unplug keyboard and plug in 232-to-USB adapter

Option 2:

Turn off power to the game

Remove microSD card from the Pi

Plug SD card into a PC

Navigate to the boot partition

Find the file named "table.py"

Right click on the file and press "Edit"

Change the bottom reference of "table = SOME_NUMBER" to your desired table

Save your changes

Put SD card back into the Pi

Turn the game on
