

HOW TO REMOVE THE SLIDER ASSEMBLY

2 PLAYER VERSION

STEP 1:

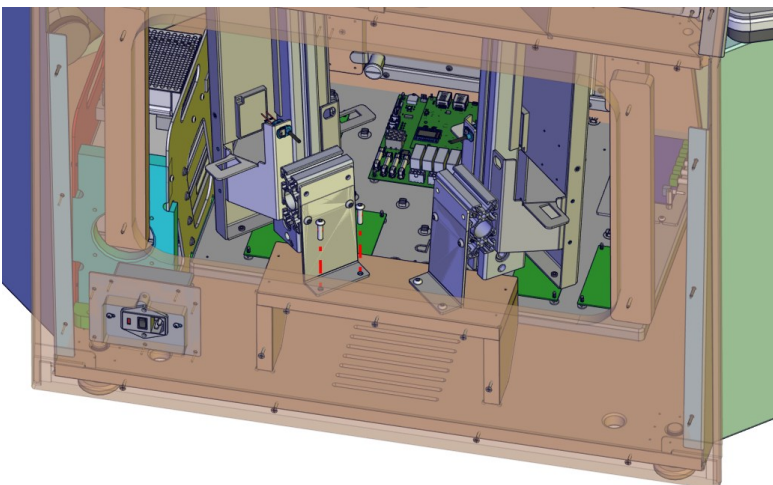

Remove Front glass and bottom door.

STEP 2:

Remove earth ground connected to bracket at bottom of the slider you need to remove.

Make sure you put the bolt back into bracket/slider and tighten before continuing.

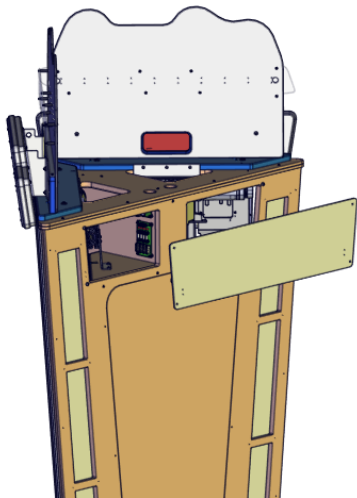

STEP 3:

Remove bottom bolts that hold the bracket to the cabinet on the slider you wish to remove.

STEP 4:

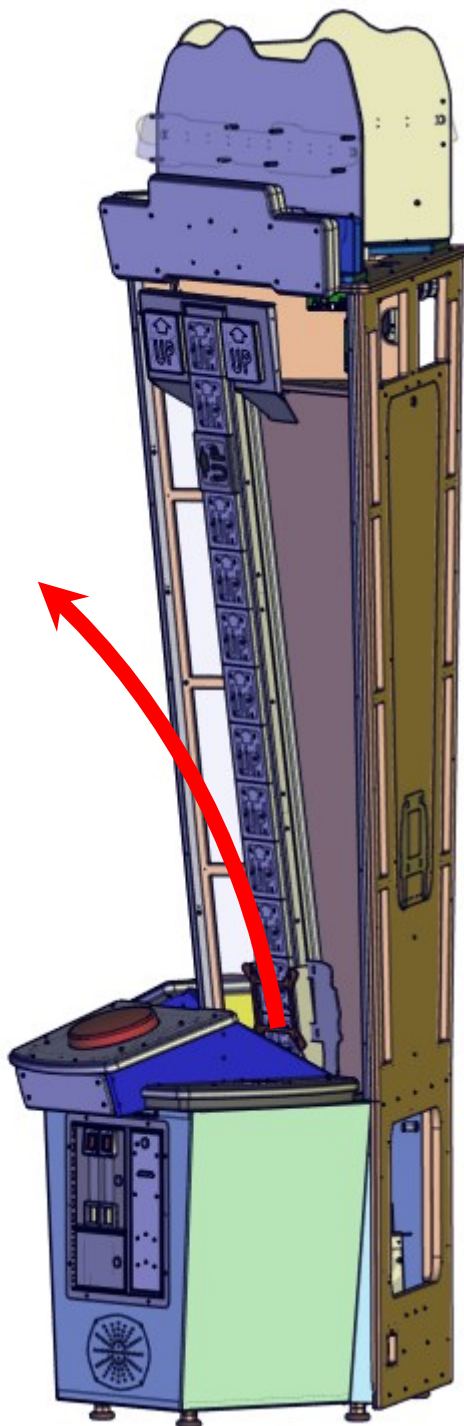

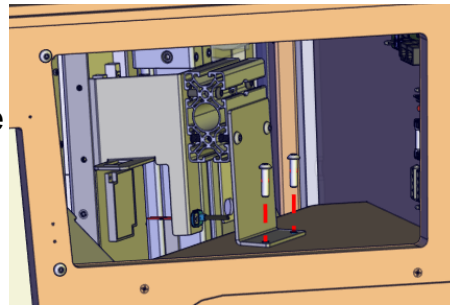

Remove top panel.

Disconnect all harnesses to the slider.

STEP 5:

Remove top bolts that hold the bracket to the cabinet of the slider assembly you wish to remove.

The slider assembly comes out the front. Be careful of the LED screens. They can scrap against the cabinet causing damage.
